

The University of Georgia

Ecology of Infectious Disease

Lecture Series

Physiological Integration and Phenotypic Variation in Vertebrates

Seminar and Roundtable Guest Speaker:

Lynn “Marty” Martin, PhD

Assistant Professor

Department of Integrative Biology, University of South Florida, Tampa, FL

March 8–9, 2011

Odum School of Ecology and

Paul D. Coverdell Center for Biomedical and Health Sciences

University of Georgia, Athens, GA

Speaker Bio: As an ecological physiologist, Dr. Martin is interested in how animals endure and thrive in their natural environments. His research involves avian immune and endocrine systems, with interests that span molecular, cellular, organismal and population levels for vertebrates. Dr. Martin completed a Ph.D. in ecology and evolutionary biology in 2004 at Princeton University and a postdoc in psychology and neuroscience in 2007 at Ohio State University.

Event Schedule

Tuesday, March 8, 2011

4:00 - 5:00 p.m.

EID Seminar, Q & A Session

Ecology Building Auditorium

Wednesday, March 9, 2011

2:00 - 3:00 p.m.

EID Roundtable Discussion: Evolutionary Ecology Meets Immunology

Paul D. Coverdell Center Auditorium, Room 175

UGA Panelists:

Dr. Don Estes, Professor, Infectious Diseases

Dr. Julie Moore, Professor, Infectious Diseases

Dr. Kristen Navara, Assistant Professor, Poultry Science

Dr. Mike Strand, Distinguished Research Professor, Entomology

*Sponsored by the
Biomedical and Health Sciences Institute and the Odum School of Ecology*
