Lecture Series

*The Heart of the Matter:  
SIRS, MODS, and the Colicky Horse*

**Speaker Bio:** Barton is a Josiah Meigs Distinguished Teaching Professor in the UGA College of Veterinary Medicine's department of large animal medicine with an adjunct appointment in the college's department of physiology and pharmacology. She has developed computer-based teaching aids to help students better understand and diagnose disease in horses, including cardiac arrhythmias and murmurs, and gastrointestinal conditions such as equine colic.

**Michelle Henry Barton, DVM, PhD, DACVIM**

Fuller E. Callaway Endowed Chair  
Professor of Large Animal Medicine  
College of Veterinary Medicine  
The University of Georgia, Athens, Ga.

**Tuesday, November 13, 2012, 3:30 p.m.**

Paul D. Coverdell Center for Biomedical and Health Sciences  
The University of Georgia, Athens, Ga.

*Sponsored by the UGA Biomedical and Health Sciences Institute*
