Reducing the Devastating Effects of Rift Valley Fever in Kenya

Speaker Bio: Torto obtained a Ph.D. in organic chemistry from the University of Ghana in 1988, followed by postdoctoral research at University of Maine, Orono. He initially worked at ICIPE from 1991–1999 before departing in 2000 to Rothamsted Research, UK, as an International Fellow. From 2001–2006, Torto was a Visiting Research Chemist at the USDA-ARS Center for Medical, Agricultural and Veterinary Entomology, Gainesville, FL. Today, he carries out research and advises ICIPE postgraduate students and postdoctoral fellows in chemical ecology.

Baldwyn Torto, PhD

Professor, Principal Scientist and Head
Department of Behavioral and Chemical Ecology
International Centre of Insect Physiology and Ecology (ICIPE)
Nairobi, Kenya

Thursday, March 7, 2013, 11:00 a.m.

Paul D. Coverdell Center for Biomedical and Health Sciences, Room 175
The University of Georgia, Athens, Ga.

Sponsored by the UGA Biomedical and Health Sciences Institute
